PROJECTS

Spark Chat - Real-Time Messaging Application

Spark Chat is a real-time messaging application designed to provide secure and instant communication. It combines a modern frontend with a robust backend to ensure reliability and scalability.

Eflyer - E-commerce Demo Website

Developed a responsive e-commerce demo website using HTML, CSS, and JavaScript. The site features a dynamic homepage with a product search bar, navigation menu, and a visually engaging hero section. It incorporates interactive design elements to simulate a functional online shopping experience.

Quizify - Quiz Mobile App

Quizify is a Flutter-based mobile app for creating, taking, and evaluating quizzes, featuring dynamic question selection and a user-friendly interface. It uses the MVC architecture, Repository pattern for data handling, and Singleton/Factory patterns for session and UI management. Developed with Dart using VS Code and Android Studio, it integrates GitHub for version control and CI/CD, ensuring seamless collaboration and functionality across Android and iOS devices.

CareerPulse Mobile App

A Flutter-based mobile application providing smart CV analysis, progress tracking, and personalized recommendations for skills, courses, and internships. It features NoSQL storage (Sembast), efficient network handling (DIO), and cross-platform compatibility, helping undergraduates enhance their career prospects with tailored guidance and resources.
